DIRECTIONAL DRILLER

THE COMPANY

Atlantic Directional Inc. ("ADI") is one of Canada's leading independent directional drilling companies. ADI has drilled in excess of 2,000 wells primarily within Western Canada but have also operated within the United States, Europe and South America. Our success is the result of our firm wide commitment to unparalleled customer service combined with exceptional operational experience and expertise. Founded by a group of entrepreneurial individuals, we plan to double our revenue base over the next 3 years.

THE POSITION

Reporting to the Operations Manager

- Understand the drilling process as it relates to Directional drilling products and services.
- Supervise and execute various well plans as required.
- Professionally represent ADI on all locations.

THE INDIVIDUAL

We are seeking an individual with most or all of the following core competencies, experience and attributes:

- Minimum of three years Directional Drilling experience, ideally from a drilling background.
- Able to work independently, and work outside the box when necessary
- Have the necessary safety certifications to work across Western Canada.
- Experience with horizontal drilling preferred.
- Ability to communicate effectively with client representatives on location

THE COMPENSATION

Compensation will be commensurate with experience
